GREEN CAMPUS INITIATIVES

22-10-2022

Our institution provides holistic education by incorporating environmental friendly measures as a step towards preventing environmental degradation. We are fortunate to be housed in a state of art campus with sound infrastructure. Our campus is lined with plants, shrubs & trees which contribute to green and clean environment. To sustain the environment, all the stakeholders shall incorporate small changes in routine life by supporting the policies of the institution, in restricting the entry of automobiles into the campus & banning the use of single-use plastic products. Since the institution is located in the heart of the city & well connected both by BMTC & Metro Rail, all stakeholders are advised to commute through public transport. This serves twin purposes of bringing down the rate of accidents and levels of environmental pollution. When use of private vehicles become inevitable, stakeholders are encouraged to use battery powered vehicles.

The college bans the use of single-use plastic and urges the staff members and students to use eco-friendly products. The use of plastic files are banned. Students are instructed to use only paper-back files for submission of academic and other reports.

Swatchata programmes involving both the staff members and students are regularly organised to keep the campus clean and green.

Circular

With the objective of promoting environmental protection and keeping the rate of accidents & pollution levels down, all the staff members and students are hereby advised to use public transport to commute to the institution, as the college is well connected by BMTC & Metro rail. Further, all are instructed to note that the use of single-use plastic products are banned. Kindly use only eco- friendly products in daily life.
