## COURSE-III: OPTIONAL-IV: INTERPRETATION OF STATUTES & PRINCIPLES OF LEGISLATION

### Objectives of the course

As it is difficult to have legislations without ambiguous provisions, there is a need to make proper study of the rules and principles relating to interpretation of statutes. Legislation is the major source of law of the modern era. Legislatures enact laws after much deliberation. No doubt in this process they have to take into account the present and future needs of the people. What are the matters to be reckoned with by legislature while enacting laws? With the emergence of legislation, interpretation of statutes became a method by which judiciary explores the intention behind the statutes. Judicial interpretation involves construction of words, phrases and expressions. In their attempt to make the old and existing statutes contextually relevant, courts used to develop certain rules, doctrines and principles of interpretation. Judiciary plays a highly creative role in this respect. What are the techniques adopted by courts in construing statutes? How far are they successful in their strategy? With the above problems and perspectives in view, this paper is framed.

### UNIT I : Interpretation of Statutes

A vitally important economic institution the banking is deeply influenced by socio-political and economic changes. The emerging changes in India, particularly after the initiation of the planning process as an instrument of rapid economic development had molded and affected the banking structure, policies, patterns and practices. A significant development in the banking system is diversification in banks financing. The Commercial banks entered into the field of wide ranging financial assistance to industry, both large and small scale, requiring the need for social control of the banking system eventually leading to the nationalization of banks.

The conventional banking system, found to be deficient for planned developmental purposes, paved the way for developmental banking. The fag of the last millennium witnesses influx of foreign banking companies into India and a shift in the banking policy as part of the global phenomenon of liberalization. The legal system is adopting itself into the new mores.

This course is designed to acquaint the student with the conceptual and operational parameters of banking law, the judicial interpretation and the new and emerging dimensions of the banking system.

## COURSE-II: OPTIONAL-I: INSURANCE LAW

### Objectives:

The insurance idea is an old-institution of transactional trade. The main objective of every insurance contract is to give financial security and protection to the insured from any future uncertainties. Hence, insurance is considered as an inevitable component of economic development. Even from olden days merchants who made great adventures, gave money by way of consideration to other persons who made assurance, against loss of their goods, merchandise ships and things adventured. The rates of money consideration were mutually agreed upon. Such an arrangement enabled other merchants more willingly and more freely to embark upon further trading adventures. The operational framework of insurance idea is provided by the general principles of contract. The insurance policy, being a contract, is subject to all the judicial interpretative techniques of rules of interpretation as propounded by the judiciary. Besides, the insurance idea has a compensatory justice component. This course is designed to acquaint the students with the conceptual and operational parameters of insurance law in the light of various legislations regulating insurance sector in India.
