Consolidated Report by the Mentor
for the Academic Year 2023-24

The college has students hailing from different economic, cultural and geographic and language barrier/ background. During the interactions with the students, one thing that was very obvious was the problem faced in the college was due to the background that they come from.

Kannada medium students find it difficult to write and follow the instructions in English and also face shortage of study materials in Kannada.

Students who stay in hostels become homesick and want to go back home.

Outside Karnataka students face language problem and food problem.

But as a Mentor I could convince them in addressing their problems and make them take up LLB degree seriously. The academic year 2023-24 ended on a good note.
