# VIVEKANANDA COLLEGE OF LAW

AN INSTITUTE OF JANATHA EDUCATION SOCIETY @

Accredited with B++ Grade by NAAC

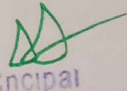

Recognised by Bar Council of India & Affiliated to Karnataka State Law University Hubballi

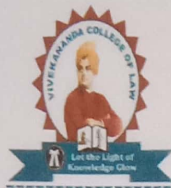

Our Institution is committed towards energy conservation in order to reduce greenhouse gas emissions into the atmosphere. This step helps in slowing down global warming and climate change. Our strategy is to consume less energy not only to save but also to promote good health by reducing our carbon footprint. The power greenhouse gas emission in the atmosphere, the better chance we have to reduce climate change. Energy conservation helps us to do that by decreasing our dependence on fossil fuels. Increasing energy efficiency is crucial because it reduces environment pollution without compromising comfort levels, even while saving money. Hence in our campus the following measures are adopted for energy conservation:

- Replace old Tube lights to New LED Bulbs, which give out more brightness while consuming power than traditional incandescent bulbs.
- Caution Notice in all class rooms to Turn Off electrical appliances when not in use.
- Unplug unnecessary appliances from outlet socket to save energy.
- Increase green cover in the campus to keep it naturally cool and thereby decrease the dependency on fans and lights

Combating global warming is everyone's responsibility. Every positive action helps to protect our beautiful environment, which we hold in trust for future generation.
