Mentor and Mentee System

The objective of Mentor and Mentee system in our institution is to guide the students (Mentees) regarding their academic and personal aspects as our institution believes that personal life of a student plays a crucial role in his academic performance. Mentor and Mentee system also aims to bridge the gap between the faculties and students.

Functioning of Mentor and Mentee System

In our institution every member of a teaching faculty is allotted with 42 students/Mentees, fostering a sense of belongingness among the students and a sense of guardianship among the Mentors as long as the students stayed in our institution. The primary objective of this system is to make the students strong individuals and successful professionals. The mentor not only helps the mentees overcome their difficulties with respect to their academics but also becomes a role model and a support system. It is our experience that mentored students turn out to be strong, complacent and committed professional who can strike a balance between their work and professional life.

Functions of Mentors

- To strike a friendly relation with the mentees, thus rendering them a sense of protection
- To continuously motivate, monitor, guide, counsel at all academic and personal fronts
- Advise the mentees regarding their choice of electives, internships, projects, placement, etc.
- Get in touch with the parents/guardians of the mentees if the situation demands
- Identify the innate talents of mentees and encourage them to hone the same
- Monitor the attendance of mentees and in case of shortage, inform the parents/guardians and the mentee
- Maintain a Log Book and record the difficulties/problem faced by mentees and also what is advised

Outcome of the Mentor and Mentee System

Over the years, we have witnessed that strong and successful mentorship ultimately evolve into long lasting friendship/bond between the mentor and mentees thus supporting each other, which transcends all barriers. Communication between the mentor and mentees helps in understanding the problems/grievances of the mentees. Attendance of the mentees is regularly monitored by the mentor. Mentor system is also instrumental in identifying the slow learners and help them to cope up with the academic demands/requirements.
